

Main Corrections

1. App is asking unnecessary permissions (Directly asking for camera permission upon opening settings for the first time). Please check and retest and remove this
2. Directly asking for mic and camera access upon opening any chat (Camera access is not required here and mic permission should only be asked upon clicking call button)
3. App continuously accessing mic even after call finishes
- 4.

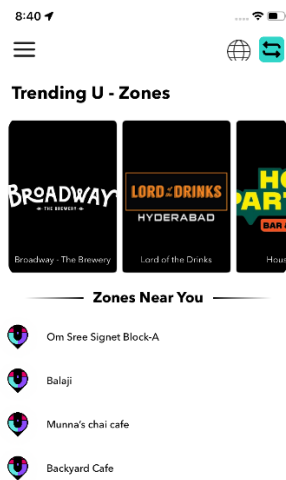

both sides same colour on IOS

5. Spelling correction its supposed to be re arrange

Also heading to be mentioned for eg: Pal Profile on top beside back arrow

Please bring this line a little on top and make it U - Zone

6. Home button not aligned in centre and U logo looks slightly shortened in height please check
7. Ability to reply to individual messages in the chat.
8. Search Bar in the Gif Section so user can search for any gifs or stickers
9. Ability to reply from notifications to a chat
10. When in call please ensure the proximity sensor works when not on speaker i.e screen should turn off when placed near ear.
